

# HOW TO INSTALL YOUR TV ABOVE A BIOFUEL FIREPLACE

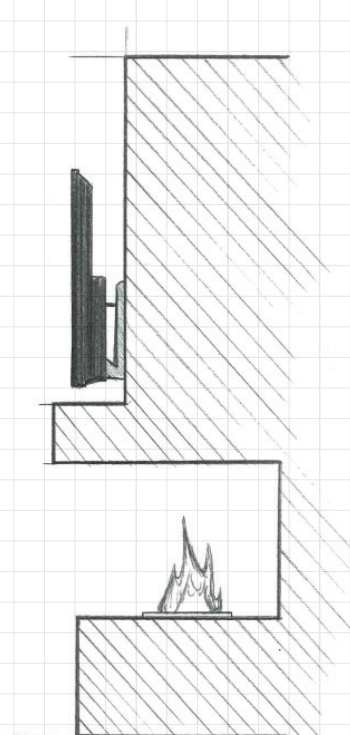

**SOLUTION 1**

The TV needs a non-combustible mantle/ledge to act as a heat shield, or

**SOLUTION 2**

The TV needs to be recessed in a niche, or

**SOLUTION 3**

The TV needs to sit back off the level of the flame.

**For more information on finishing and clearances contact us today.**

\*Always check the specifications of the AV equipment being used to confirm suitability.
