MULTIZONE COLORFLOW

The Multizone Colorflow let's you give Astro your own look. There are **three lighting zones**, each with individual colour settings.

FLAME HUE

Natural amber colour? Or maybe vivid turquoise? Set your favourite colour of the flame and make it look like never before.

DOWNLIGHT LOGS ILLUMINATION

The LED panels installed above the furnace illuminating the logs.

GLOWING FLOOR

The colourful floor with glowing effect. To give it more depth we decorated Astro with translucent crystals that vividly flicker and catch the same colour as the floor.

NATURAL LOOK

A fireplace is not only about the light and heat. Astro brings our newly-designed resin logs and vivid crystals. All of them are put atop the original Glowing Floor with a

HEATFLOW SYSTEM

Astro not only decorates but also warms up your home. Take advantage of the 2-stage heater to enjoy cosy winter evenings. Two heating levels: 1500 W and 3000 W

YOU DESIGN!

Enjoy the three-sided panoramic flame or cover the sides of Astro with the included panels. By framing the fire you get three additional arrangement options.

DIFFERENT ARRANGEMENTS

Astro means flexible design. You can fully or partly recess the fireplace or simply hang it on the wall.
